Oct. 27, 2023

a weekly briefing

## The News.

**B**lack History Month will be celebrated tonight in the Commons from 5-7 p.m., featuring musical performances and the announcement of the FIND Africa Black History competition winners. Grade 7 Teacher Tolani Enin is the head of the FIND group for Africa and Nigeria – referring to the Families Integration Diversity committee through the Parent Community Association – and said she created the competition to encourage attendance for the celebration night.

“We’re kind of new to this, so we hope we’ll get a lot of people this year,” Enin said. “We’ve got a lot of different surprises.”

Although the school celebrated the U.S. Black History Month in February, Enin said she planned events for Britain’s Black History Month throughout October to increase engagement from the school community in comparison to last year.

“It wasn’t well attended,” Enin said. “Not a lot of people knew that we were actually having that event.”
